

# Alfresco™

Open Air Culinary Systems

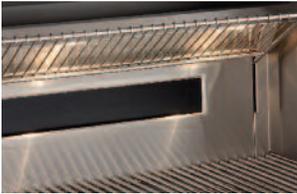

The Alfresco Intelligent Professional Grill

## AIPG Features

**THERMAGLASS™ RADIANT BURNER SHIELD:** Conventional ceramic briquettes create flare-ups, increasing the chances that you may overcook or even burn your meal. With a heat resistance of up to 1800°F, Thermaglass™ evenly distributes heat throughout the grill and protects your burner ports; juices and drippings flow quickly off the surface and into dedicated easy-clean drip trays. This revolutionary design ensures that flare-ups are a thing of the past.

### **GLASS-COVERED REAR INFRA-RED BURNER:**

A new radiant glass panel over the rear infrared rotisserie burner makes for easy cleanup and a sleek, integrated look.

### **TWO-POSITION MEGA-DRIVE™ ROTISSERIE:**

Now featuring an updated two-position design, the AIPG Mega-Drive™ rotisserie offers added versatility. The forward position makes extra room for larger birds—like whole turkeys—so they spin freely without crowding or contact. For more delicate or compact cuts, the closer position places them nearer the heat source for beautifully even, precision roasting. Whether you're cooking a big holiday bird or an elegant weeknight meal, it's engineered for flawless, flavorful results every time.

### **3-POSITION WARMING RACK:**

Expand your options with the 3-position warming rack. The lower positions offer added functionality, whether you're gently warming finished dishes or giving items a final crisp. When not in use, the rack tucks neatly into the top position—keeping it out of the way during rotisserie cooking. It's a smart solution for managing multiple cooking zones without crowding the grill surface.

### **TRIPLE-SPOT HALOGEN LIGHTING:**

Grill with confidence, day or night. Alfresco's integrated triple-spot halogen lighting system delivers bright, even illumination across the entire grill surface—so you can see exactly what you're cooking, no matter the conditions.

### **MULTI-POSITION SEAR ZONE™:**

Tailor your grill setup to match your cooking style. The AIPG Sear Zone™ can be positioned in the left, center, or right zone of the grill to suit your cooking style and preferences. If you're left-handed or simply have a preferred searing spot, this adaptable design puts precision and comfort right where you need it.

# AIPG Features

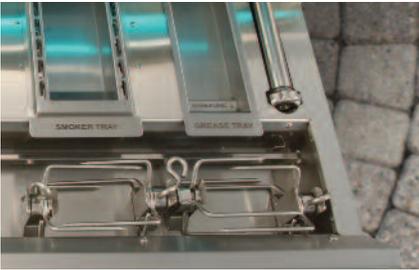

## GRAVI-LIFT™ GRILL HOOD ASSIST:

Defy gravity with the AIPG's innovative counter-balanced hood lift system, and adjust the tension to your preference.

## AIPG GRILL DRAWER DETAILS:

1. Grease Tray
2. Smoker Tray
3. Wireless Temperature Probe
4. Spit Rod
5. Spit Rod Handle
6. Spit Rod Forks

## SPIT ROD STORAGE:

The AIPG drawer system includes dedicated storage for your spit rod, forks, and handle—keeping everything neatly organized and right where you need it.

## SIGNATURE TASTE X2™:

Our exclusive Signature Taste X2™ smoking system opens a whole new world of flavors for the aspiring outdoor chef. Two strategically-placed drawers hold large chunks of wood and herbs, and linear diffusing vents naturally eject smoke at 200° to the food zone.

## SENSA-TEK™ WIRELESS TEMPERATURE PROBE:

Cook with precision and confidence. The Sensa-Tek™ wireless probe lets you monitor internal temperatures in real time—so you always know when your food is perfectly done. Create and save custom settings tailored to your exact preferences; and when you're finished, simply store and recharge the probe in the AIPG's built-in docking station. Smart, seamless, and always ready for your next cook.

# AIPG Features

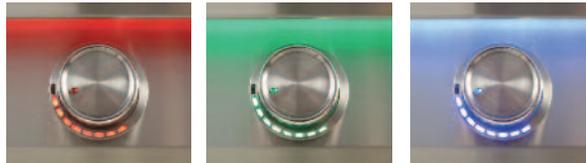

## DIGITAL BACKLIT TEMPERATURE DISPLAY:

Located in the right corner of the control panel, this backlit digital display provides real-time, rotating temperature readings for the left, center, and right burners—plus the wireless probe. It delivers precise, up-to-the-second insight into each grilling zone, giving you total control over every inch of the cook surface.

## LUMATOUGH™ CONTROL LIGHTING:

Like the face of a luxury timepiece, the AIPG's LED knob and panel lighting offers a precision display of your burner settings. Fine-tune your temperature with ergonomic ease and accuracy. The entire control panel is also beautifully illuminated, with over 20 color options and 8 adjustable brightness levels—so you can match the mood, day or night.

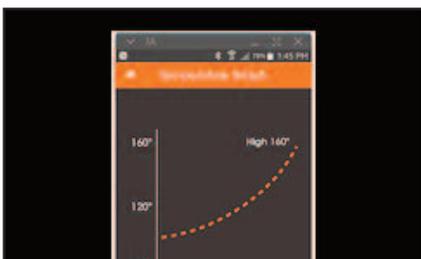

## INTELLI-TEMP™ SMART GRILLING CONTROL SYSTEM:

Years of development have gone into the design of our custom Bluetooth® smart phone app, letting you control your Alfresco AIPG grill at the touch of a finger. Know exactly what's going on under the hood in real-time, allowing you to make precision adjustments as you cook. Customizable alarms, timers, and protein presets make the AIPG Grill app a powerful and easy-to-use tool for consistent outdoor cooking.

Customizable alarms, timers, and protein presets make the AIPG Grill app a powerful and easy-to-use tool for consistent outdoor cooking.

## REAL-TIME GRAPHING SYSTEM

Cooking history graphs update in real time on the app, allowing you to see exact temperatures used throughout the cooking process. This historical data lets you repeat a cooking process to perfection every time you grill.

# AIPG Cart Features

## PULL-OUT TANK DRAWER

AIPG cart models feature a convenient pull-out shelf for your propane tank, making swaps quick and hassle-free.

## ILLUMINATED CART DRAWERS AND UNDER-STORAGE

No more fumbling in the dark. Both the drawers and under-storage areas are fully illuminated, making it easy to find exactly what you need—even during nighttime grilling sessions.

# AIPG Drop-in Grill Accessories

## STEAMER, FRYER, PASTA COOKER:

Blanch, steam, fry, or broil. From deep-fried chicken tenders and onion rings, to mussels, clams, and even lobster, no other outdoor grill has more cooking versatility!

## INDIRECT ROASTING POD:

Turn your grill into an amazing roasting oven with Alfresco's indirect roasting pod. Holds drip pan for self-basting, bringing out true slow-roast flavor. Use adjacent burner(s) to create convection heat, or smoke-and-roast using the Signature TasteX2™ smoke and herb infusion system.

## GRIDDLE:

This 3/16" solid stainless steel griddle plate with integrated sides and backsplash, is a solid drop-in accessory that is great for Teppanyaki, fajitas, breakfast, or juicy burgers.

## SOLID FUEL INSERT:

Transform your Alfresco grill into a wood-source cooking system. Simply drop the specially-designed insert into the grill, and fill up with your favorite wood, lump charcoal, or other solid fuel for real wood-cooking flavor
