Assembly

GFCART-40
1 door

**GFCART-75 &
GFCART-105**
2 doors

Use M8 screws for fix the griddle at left
and right side

IT IS ESSENTIAL TO READ THE SAFETY INSTRUCTIONS BELOW BEFORE HAND-LING OR USING YOUR ROLLING CART OR PLANCHA. FAILURE TO FOLLOW THESE INSTRUCTIONS MAY RESULT IN SERIOUS INJURY OR MATERIAL DAMAGE (BURNS, EXPLOSION, FIRE, ETC.)

1. Do not place the gas bottle on the side trays of your rolling cart or stand.
2. If your plancha with its stand or rolling cart are protected by a soft cover, make sure to remove it before using or turning on the plancha.
3. Important: When using your plancha on a rolling cart or stand, NEVER use a gas bottle that weighs more than 6 kg.
4. Important: Always use your plancha on its stand or rolling cart in a properly ventilated area.
5. Important: When cooking, always position your plancha with its stand or rolling cart on a flat, stable surface.
6. Important: Never keep spare gas bottles near the plancha with its rolling cart or stand when your plancha is ON.
7. Important: Accessible parts of the stand or rolling cart may get very hot. Never move them when your plancha is ON.
8. Important: Never leave your plancha on its stand or rolling cart near children or pets when it is ON.
9. Never move the rolling cart when the plancha is ON. Make sure to lock the wheels.
10. Do not handle your stand or rolling cart until the appliance has completely cooled.
11. Important: Never move your stand or rolling cart with the gas bottle in the housing provided for this purpose or on the bottom shelf.
12. Important: If your plancha is positioned on a stand (table, etc.), the stand must be made of non-combustible materials and your plancha must be fitted with its 4 legs. If your plancha is installed on a rolling cart, use a suitable type such as the one supplied by the manufacturer.
13. Make sure to center your plancha on its stand or ensure that its sides and rear are as far as possible to prevent the heat radiating from the plancha from heating the stand when ON.
14. Your plancha must not be in contact with its stand (sides or rear) when ON.
15. FOR ALL STAINLESS STEEL MODELS: Remember to remove the protective adhesive part before use.
16. Exceptional maintenance operations (replacing parts, servicing in case of malfunction) must be entrusted to qualified personnel authorized by the manufacturer or retailer.
17. Do not handle or lift your rolling cart by the side trays. Side shelves can not load more than 10 kg.
18. Do not lean on the side shelves when they are open.

Maintenance Instructions

Before storing your plancha on its stand, disconnect the gas bottle and store it outside in a dry, ventilated area, away from all heat sources. Store your rolling cart and plancha in a dry area where there is no risk of damage or humidity.

If your product will not be used for a long time, it is recommended to store it in a dry, sheltered place.

We sell a full line of protective soft covers specially designed to provide maximum protection for your product when not in use.

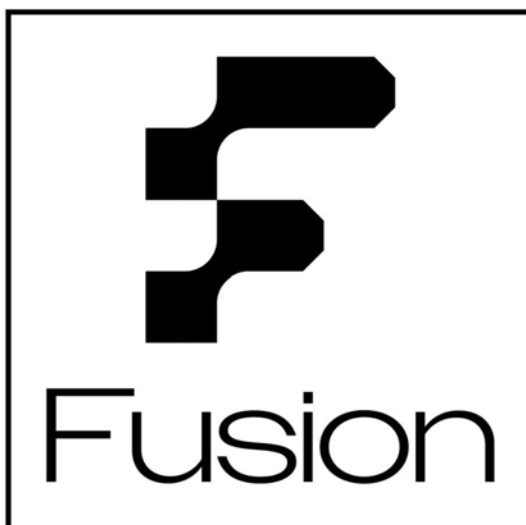

Warranty

Length of manufacturer's warranty:
2 years.

The warranty enters into effect on the date the product is purchased. For all warranty-related matters, contact your retailer.

The warranty shall not apply in the following cases:

- Malfunction due to a reason unrelated to the product (impact, lightning, flooding, etc.).
- Use of the product that does not comply with these instructions.
- Failure to comply with all safety instructions.
- Use of the product for purposes other than its intended use.
- Any modification made to the product resulting in a change to its original characteristics.
- Any intervention not performed by our authorized retailers.
- Any damage to the product due to non-compliance with the maintenance instructions or to failure to protect the product properly when not in use.
