

Fusion Griddle

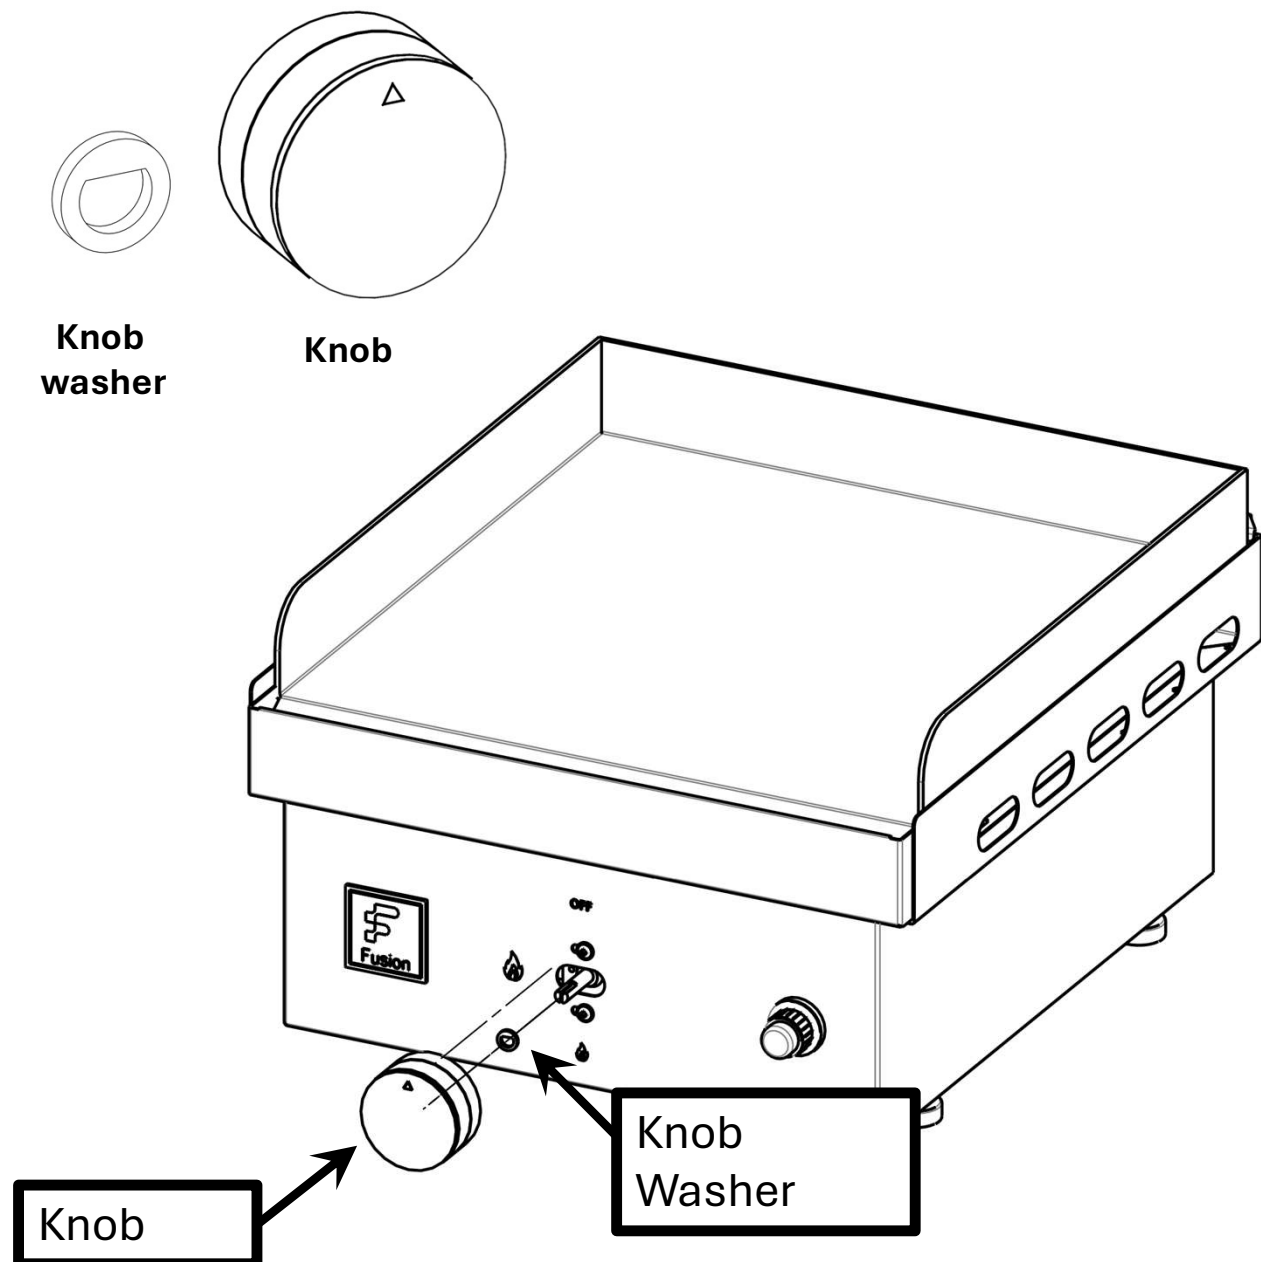

GETTING STARTED

Thank you for choosing Fusion Griddle for your cooking appliance. Before installation, please complete the following steps.

1- Remove all protective plastic film

2- Knob Installation

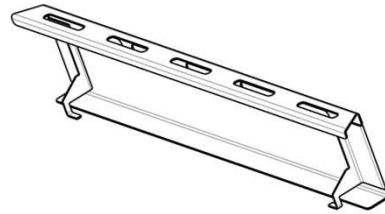

Retrieve the knobs and knob washers, and install them as follows. Each valve will have one washer and one knob.

3- Install the wind guard parts

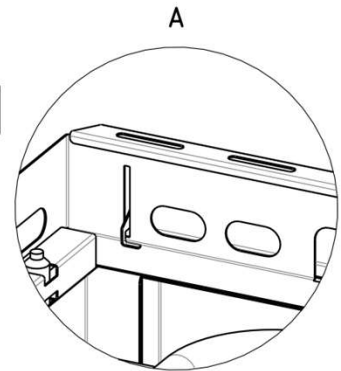

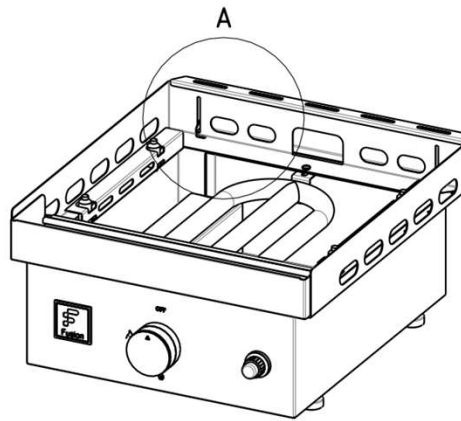

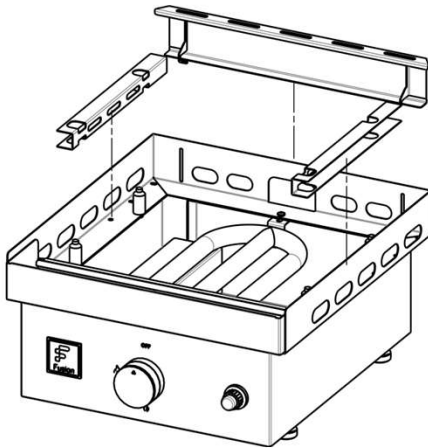

Lateral wind guard X2

Rear wind guard X1

Place the lateral guards onto the support rods of the cooking plate. The rear guard is positioned behind the griddle. Use pliers to bend the tabs in order to secure it in place.

You can now refer to the instruction manual for all information regarding your Fusion Griddle, including installation guidelines. Welcome to the Fusion Griddle family!
