## Bringing Family and Friends Together

Bonfire was born with one main mission in mind: to bring family and friends together to celebrate and enjoy life.

We specialize in manufacturing well-crafted, high-quality barbecue grills with many years of background engineering and manufacturing.

In 1993 we started with a small workshop and a few machines. At present time the factory is an industry leader, providing the actual product plus accessories and services to our Distributors and Dealers.

We have worked with many different types of world-famous barbecue brands and along our journey, we have acquired a broad knowledge that gave us an opportunity to advance our craftsmanship and product design.

Currently, we have over 200 employees, with a team of professional engineers and product designers.

We have set our goals in developing top-quality grills to bring our customers satisfaction and enjoyment.

## WHISTLER GRILLS

- Whistler products are constructed of 304-grade Stainless Steel
- Cast stainless steel burners combined with flame tamers to distribute heat evenly by doing so it locks all the juices in your steaks, poultry, fish, etc.
- With Blue LED lights outside on the front panel and 2 inside halogen lights to illuminate the inside of the grill to give you a bright grilling experience even in low light.
- LP or NG is a choice for your convenience.
- All of our grills come with a Free Rotisserie and a BBQ cover, except our 5 Burner which includes a heat divider, and smoker box plus the knobs are polished Stainless Steel Knobs. See product "Specs" for more details.
- 304 Stainless Steel Double Lined Hood for better heat retention
- Cast Stainless Steel main-burner / 15,000 BTU
- Ceramic Infrared Rear Burner with Flame Failure Device / 12,000-15,000 BTU
- Food Grade SS304 Heavy Duty Cooking Grid
- Warming Rack also SS304 Food Grade
- Built-in Thermometer
- LED Blue Light over the knobs
- Double Interior Halogen Lights
- Full-Size Drip Pan
- Including a Rotisserie Kit and Cover
- Easily Converts from LP to NG
